# THE COMFORT OF WOOL WITH THE PERFORMANCE OF NYLON

## CORDURA® COMBAT WOOL™

Combining the comfort and aesthetics of wool with the durability of nylon, CORDURA® *Combat Wool™* offers engineered endurance performance. Woven using INVISTA nylon 6,6 staple fiber that is intimately blended with merino wool for an authentic classic wool look and feel with enhanced abrasion resistance and toughness.

### Characteristics

- Rugged – up to 10X more abrasion resistant
- Comfort – high wool content
- Lightweight strength – optimal strength-to-weight ratio
- Strong – excellent tear strength
- Authentic – look and feel of classic wool wovens
- Minimum INVISTA nylon 6,6 fiber content required

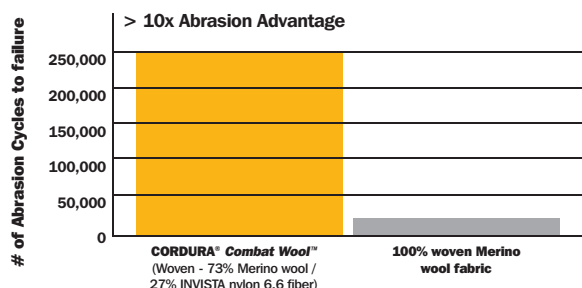

**Fabric type:** Woven constructions with and without stretch functionality. Can be finished, coated or laminated if required.

The CORDURA® *Combat Wool™* portfolio offers apparel solutions for today's active urban lifestyle and specialist military and work uniform applications. Some options can also be adapted for use in bags, footwear and accessory items.

### CORDURA® COMBAT WOOL™ PERFORMANCE VS 100% MERINO WOOL FABRIC

Martindale Abrasion EN ISO 12947-2\*  
Standard Woollen Abrasion with 12KPa weight

Test stopped at 250,000 cycles
