# SMOOTH FABRICS WITH OPTIMAL STRENGTH-TO-WEIGHT RATIO

## CORDURA® LITE FABRIC

Originally developed for light yet durable technical packs requiring an optimal strength-to-weight ratio, CORDURA® *Lite Fabric* is woven with high tenacity nylon 6,6 filament yarns and offers enhanced tear and abrasion resistance.

### Characteristics

- Strong – excellent resistance to tearing
- Rugged – good resistance to abrasions and scuffs
- Shiny Luster – 100% high tenacity (100D-1050D) nylon 6,6 bright filament
- Water Repellent – finished/coated options

**Fabric type:** Woven, plain, rip-stop, basket or complex dobby constructions.

Ideal for use in technical packs, luggage and accessories as well as to reinforce high wear areas in performance apparel.
