

Transform
waste to want.

From discarded comes renewed.

CORDURA® *re/cor*™ RPET Fabric

Waste avoidance is an important attribute of the CORDURA® *re/cor*™ RPET fabric portfolio. This 100% recycled polyester yarn is created from discarded bottles and packaging. These fabrics meet the fabric performance and durability specifications of the CORDURA® brand.

Characteristics

- Strong – good resistance to tearing
- Size and Luster of qualifying yarns – 300D (330 dtex) 100% post-consumer recycled polyester filament, semi-dull

Fabric type: Any woven construction – typically plain, ripstop, and dobby.

Ideal for use in a variety of products including bags and packs, luggage, equipment, accessories, and footwear.
