

**STYLISH FABRIC
WITH TECHNICAL
DURABILITY**

LIGHTWEIGHT, BREATHABLE AND STRONG

CORDURA® NATURALLE™ FABRIC

Technical performance with the look and feel of cotton. CORDURA® *Naturalle™ Fabric* is engineered with full-dull luster nylon 6,6 filament yarns and offers long-lasting, ruggedly stylish solutions for endurance apparel.

Characteristics

- Lightweight – 50 gm² and above
- Rugged – abrasion and tear resistant
- Strong – excellent tensile strength-to-weight ratio
- Matte appearance – full-dull luster nylon 6,6 filament yarn
- Water Repellent – coated or laminate options
- Stretch – options woven with elastane and spandex yarns

Fabric type: Woven, plain, rip-stop, doubleface, dobby constructions with and without stretch functionality. Coated. 2- or 3-ply laminates.

Styled for a wide variety of apparel including outdoor endurance sports (climbing, cycling, skiing etc) clothing, lifestyle and sport inspired work garments. Technical pants and shells, mid-layers and outerwear. Rugged stretch wovens also used in garment reinforcement applications.

CORDURA® NATURALLE™ FABRIC
